Shreveport, Louisiana

AGENDA

1. Call to Order
2. Roll Call
3. Adoption of the Agenda
4. Public Comments
5. Action Items:
 - A. Approval of Reorganization Plan and Salary Adjustments, SULC
 - B. Approval of Proposed Four Percent across the Board Salary Increase, SULC
 - C. Approval of Proposed Four Percent Increases and Salary Adjustments, SUAREC
 - D. Approval of Faculty Overload & Adjunct Pay Increase, SUSLA
 - E. Approval of Salary Adjustment Proposal, SUNO
 - F. Approval of Personnel Action on Positions greater than \$60,000
6. Other Business
7. Adjournment

MEMBERS

Atty. Murphy F. Bell, Jr. – Chair; Mr. Darren G. Mire - Vice Chair;
Mr. Calvin W. Braxton, Sr., Rev. Joe R. Gant, Jr.,
Mr. Willie E. Hendricks, Dr. Eamon M. Kelly, Mrs. Ann A. Smith
Atty. Bridget A. Dinvaut - Ex Officio

Re: Reorganization Plan and Salary Adjustment Request

Dear Dr. Mason:

I write to request the approval of a reorganization plan and corresponding salary adjustments for several Law Center staff persons who will be assuming additional duties and responsibilities under the plan. We believe that this new organizational structure will greatly improve and enhance the efficiency of our overall operations and provide our students and external constituents with a greater level of customer service.

The Plan

The Law Center's Enrollment Management Office that formerly oversaw the operations of Enrollments and Records, Admissions, and Recruitment will now come under the auspices of the Office of Student Affairs. Enrollment and Records will now be known as the office of Records and Registration and the separate offices of Admissions and Recruitment will be consolidated into the single office. Both of these offices will be headed by a director who will report to the Vice Chancellor for Student Affairs. Financial Aid, which formerly reported to the Associate Vice Chancellor for Enrollment Management, will now report to the Associate Vice Chancellor for Finance. The position of Associate Vice Chancellor for Enrollment Management will be eliminated as all supervisory responsibilities will be shifted to the Vice Chancellor for Student Affairs and Associate Vice Chancellor for Finance.

Within this new structure, I am also requesting creation of a new staff support position in the office of Student Affairs. The title of this position will be **Coordinator of Student Affairs**. This person will support the Vice Chancellor for Student Affairs in connection with matters concerning the Student Bar Assoc., and some 19 other Student organizations, the offices of Records and Registration, Admissions and Recruitment.

We also will be adding a new position in the Admission and Recruitment Office, which will be a part-time seasonal recruiter/counselor. This part-time person will assist the Director with recruitment efforts throughout the course of the recruitment season, which generally runs from the last of August through

OFFICE
2013 AUG 22 PM 4:50
SYSTEM

the month of December. The Recruiter will represent the Law Center at organized collegiate recruiting events and national forums; meet with pre-law advisors; make presentations to individuals and groups of students; produce status reports on recruiting efforts; conduct tours of the Law Center and attend Informational Sessions and Open Houses.

Campus Disability Mandates

The Law Center over the years has relied upon the Baton Rouge Campus to provide compliance information on Federal Disability laws and regulation. With the Law Center’s increase in its student population, it is imperative that we have our on campus Disability persons to monitor state and federal disability rules and regulations to insure consistent compliance.

Clinical Education Department

After nearly fourteen-years of heading up the Law Center’s Clinical Ed Department, Professor Donald North has decided to step down and assume a full teaching load on the regular faculty. In view of his departure, I am recommending Assoc. Professor Virginia Listach as his replacement on an interim basis, until such time as we can launch a search for a new director. Professor Listach has unofficially acted as the Clinic’s Assistant Director and is well equip to lead the Clinic’s Operations and has the full support of the entire clinic faculty.

Name	Title & Salary	New Title & Salary	Increase Justification	Budget Impact
Terry Hall	Assoc. VC Finance \$91,522	Same \$98,750	In addition to CFO duties and responsibilities, he will assume the responsibility of overseeing Financial Aid Office and Campus Facilities Mgt.	\$7,228
Andrea Love	Director of Recruitment \$60,000	Dir. Office of Admissions and Recruitment \$68,000	Will assume the responsibility of and overseeing the management of the consolidated offices of Admissions and Recruitment	\$8,000
Atty. Ruth B. Wesley	Executive Asst. to the Chancellor – SULC \$72,500	Exec. Asst. to the Chancellor and Campus Disability Coordinator \$80,000	Taking on additional duties & responsibilities	\$7,500
Calaundra Clark	Financial Aid Manger \$65,000	Director of Financial Aid \$68,000	Equalize salary with other Directors	\$3,000

Virginia Listach	Assoc. Prof. of Clinical Ed. \$76,213	Interim Dir. of Clinical Ed. \$86,213 Includes administrative stipend	New Salary represents an additional administrative stipend.	Title III Funding *** \$10,000
D 'Andrea Lee	Asst. V.C. for Enrollment Mgt. \$68,000	Dir. Records and Registration \$68,000	Change in title only	0
	Financial Aid Coordinator	\$42,500		\$45,500
	P/T Recruiter	\$12,000		\$12,000
			Total Cost	\$80,228
Elaine Simmons (Ret.)	VC Enrollment Mgt. \$89,000	Position Eliminated	Supervisory Duties Assumed by VC for Student Affairs	\$89,000
			Reorganization Cost Savings	\$ 8,772

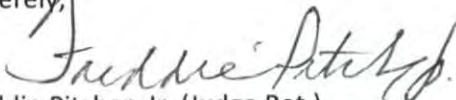

*** Denotes funds drawn for Title III Dollars

As indicated above the changes we are proposing, along with salary increases for the additional duties and responsibilities, will help improve the delivery of services to our students as well as incentivize staff productivity in the service areas affected. Also note that all of the recommended salary increases will be taken from the cost savings from the elimination of the position of Associate Vice Chancellor for Enrollment and Records. Consequently, there will not be an adverse impact on our budget with the propose adjustments.

After your review, I request your approval of the proposed changes and that our reorganization plan is passed on to the Board of Supervisor for their concurrence at its September 6, 2013, Board meeting.

Thank you for your consideration and with kind regards, I am

Sincerely,

Freddie Pitcher, Jr. (Judge Ret.)
Chancellor – SULC

C A M P U S

Dear Sir:

I have contacted the Louisiana Department of Civil Service to assure compliance with any proposed raises for classified employees. I was informed by our representative that any raise to Civil Service employees less than 4% would have to be included in a "Lay-off avoidance measure". We would have to go through this process by September 30th in order to have approval for classified raises effective, October 1st. The raises would not be retroactive to July 1st. We were required to follow this same process for the retirement incentives.

SUNO and SULC are proposing a 3% increase which falls below the 4% threshold and we will need to conduct the lay-off avoidance measure. Since SUAREC is proposing a 4% increase for their classified employees we will be able to move forward after approval by the board.

If you have additional questions, or need further assistance, please advise.

Sincerely,

Lester Pourciau
Vice President for Human Resources

Re: Request to Raise Salary Increases for Civil Service Employees to Four Percent

Dear Dr. Mason:

When I drafted my letter to you of August 27, requesting approval of a three percent (3%) across the board raise for all Law Center employees, I was not aware of the State Civil Service requirement that any raise given to Civil Service employees of less four percent (4%) would have to be included in a Lay-off avoidance measure until notice by email from Ms. Evola Bates on August 29. Based upon the small number of civil service employees employed at the Law Center, an additional one percent (1%) would only cost us \$7,715.00. Our budget would allow us to meet the four percent requirement of Civil Service which would preclude our having to go through a lay-off avoidance process.

I am therefore requesting that our original request to grant cost of living raises of three percent across the board to all SULC employees be amended to state that "A three percent increase be granted to all non-classified faculty and staff employee and that a four percent (4%) increase be granted to all classified employees of the Law Center."

I would appreciate your concurrence and ask that this amendment be forwarded to the Board for final approval at its next meeting.

Sincerely,

Freddie Pitcher, Jr., (Judge Ret.)

To: Dr. Ronald Mason, President
 Southern University System

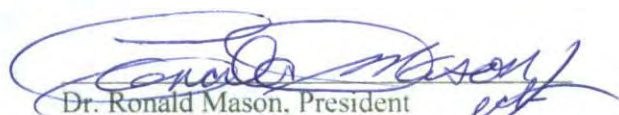

Dear Dr. Mason

I am recommending a 4% pay adjustment for all full-time employees who have been employed in the center for more than one year. There are also equity adjustments being recommended for employees who are grossly under paid relative to their peers using the CUPA-HR 2012-2013 data. All adjustments are effective July 1, 2013.

Sincerely,

 Leodrey Williams
 Chancellor

Faculty Overload & Adjunct Pay Increase

SUSLA
Excellence • Integrity • Accountability • Service
Office of the Chancellor

August 20, 2013

Dr. Ronald Mason, President
Southern University System
4th Fl., J. S. Clark Administration Bldg.
Baton Rouge, LA 70813

Dear Dr. Mason:

The purpose of this correspondence is to request your endorsement of an increase in faculty overload and adjunct pay for the Southern University at Shreveport campus.

Our research has indicated that the national average or median for overload pay for two-year institutions is between \$2,300 and \$2,700 per three (3)-hour course. We also benchmarked several Louisiana community colleges and universities which revealed an average pay for faculty overloads of \$2,100 per three (3) hour course.

Our current rate of pay is \$1,350 and \$1,500, respectively, for adjunct and overload pay per three 3-hour course. To my knowledge, this pay schedule has not changed over the last ten years. I am proposing (see attached) an increase of \$300 per three (3) credit hours for adjunct faculty and \$500 per three (3) credit hours for overloads. It is extremely important that the University remain competitive as we seek to recruit faculty for both classroom and on-line instruction. I would like to add for informational purposes that the SUSLA faculty voluntarily agreed to teach one (1) three hour course overload in FY 13 with no compensation.

Your approval of this request and subsequent submission to the Southern University Board of Supervisors is solicited. If you have questions or concerns, I can be reached at (318) 670-9312.

Respectfully submitted,

Ray L. Belton, Ph.D.
Chancellor

Salary Adjustment Proposal
Effective July 1, 2013

Southern University at New Orleans

Salary Adjustment Proposal

Effective July 1, 2013

Southern University at New Orleans (SUNO) serves as a beacon for those looking for educational advancement in an environment that provides personal attention some students need for success. Our mission is to be one of America's premier urban HBCUs and to graduate students who are prepared to contribute to our city, nation and world.

SUNO's faculty and staff demonstrate on a daily basis the professionalism, dedication, and sincere loyalty to achieving the goals and objectives of the University despite not receiving monetary incentive since 2008. SUNO and its employees have met/and or exceeded all academic goals set by SACSCOC and other accreditation bodies, the SUS, and the Louisiana Board of Regents.

In recent years, cost of living in the city has soared. Leaving salaries at the current rate has placed employees at a disadvantage and has produced, and will continue to produce, a high turnover rate because the employees will eventually seek employment outside SUNO. SUNO's operations have suffered hardships as a result of unexpected faculty and staff resignations for higher pay at other institutions or agencies. For instance, within the past year alone, the following painful resignations occurred: Dr. Lora Helvie-Mason, Assistant Professor of Communication Studies, the only faculty in this specialty, resigned for a higher pay in Texas just before Fall 2012 started; similarly, Dr. Yu Jiang, Professor of Museum Studies, and Dr. Danielle Duffourc, Accreditation Support Officer who played a significant role in the SACSCOC reaffirmation in 2011, were both attracted away by Xavier University in the city; Ms. Ada Dinh (formerly Kwanbunbumpen), the QEP Director and Interim Coordinator of Institutional Effectiveness, resigned in February 2013, having been offered a higher salary by Baton Rouge Community College; John Bonne, Network Manager in the IT department, has just been offered a higher salary by UNO and has left SUNO; and Dr. Glenda Allen-Jones, Associate Professor of Early Childhood Education, tendered her resignation effective July 2013. There have been earlier resignations before the most recent ones chronicled above. Inflation rates continue to impact employees' incomes and their ability to meet ongoing expenses to sustain quality family life. According to an article "*Overworked America: 12 Charts That Will Make Your Blood Boil*" by Dave Gibson, July/August 2011 Issue of Politics Labor Top Stories at MotherJones.com, the cost of living has increased 67% since the year 1990.

In comparing SUNO's faculty salary structure to the Louisiana Board of Regents College and University Professional Association for Human Resources (CUPA-HR) Salary Survey for 2011-12 academic year, SUNO's salary structure is well below average (Attachment 1).

<u>Position Description</u>	<u>SUNO</u>	<u>SREB</u>	<u>SUNO Over (Under)</u>
Professor	\$ 61,638	\$ 76,830	\$ (15,192)
Associate Professor	53,926	64,125	(10,199)
Assistant Professor			

	50,007	54,443	(4,436)
Instructor	40,108	45,326	(5,218)
Undesignated/Other	46,603	46,584	19
All Ranks	51,626	59,816	(8,190)

Currently, there are Full Professors earning as low as \$44,654. Needless to say the morale is extremely low with such faculty.

In a comparative review of the administrative salaries of SUNO's employees to the College and University Professional Association for Human Resources (CUPA-HR) Salary Survey for 2012-13 academic year, the salaries of SUNO's employees fell below the lowest category of the CUPA-HR Salary Survey (Attachment 2 and 3).

New Orleans is a "High Cost City" and this has impacted employees beyond reasonable limits, inducing adverse mental and emotional attitudes due to financial hardship. Morale is enormously low which will eventually reduce productivity.

The proposed minimal increase in financial compensation is expected to add a spark to the positive side of morale, as well as generate enthusiasm, motivation and participation in bringing new ideas to substantiate, enhance and reach the current goals of the University in the quest to compete against other higher education entities.

Source of Funding – Housing Loan Forbearance

Significant funding (over 75%) of the loan forbearance has strategically been budgeted to enhance **enrollment, retention, graduation rate and completers data, as well as improve the overall academic and administrative operations of the institution** (attachment #4).

The source of funding for this proposed salary adjustment is from the Loan Forbearance due to Housing Loan Modification. The specific proposed salary adjustment is to provide an across-the-board 2% increase (\$222,182) and a 1% increase based on exceptional performance and recommendation. The 1% performance based increase is expected to be awarded to 25% of the employees or an estimated amount of \$27,769.

The proposal hereby presented is thus geared toward boosting the morale of faculty and staff, which is expected to enhance their retention and improve job productivity.

Associate Vice President of Technology Operations

Reports to the Vice President of Information and Technology Management and provides managerial and technical leadership over application support and voice and data networks. Supports an architectural infrastructure vision and report for the Technology and Network Operations system-wide. Implements best of breed security standards and ensures the right processes to ensure campus risks are manageable. Help define and implement cloud strategy for system-wide applications and services. Sets the direction for operational technology within the system and assessments of new technologies.

Nature of Work

Accountable to day-to-day operations of the enterprise's digital communications, server, storage, unified messaging systems, programs, and/or initiatives, inclusive but not limited:

- Manage a staff of professional team members and team leaders dispersed throughout the enterprise locations.
- Define roles and responsibilities
- Define and contribute to standards around which others will operate
- Establish and influence operating policies
- Plan for the area's future needs and operations
- Lead program execution
- Contribute to policy/program development
- Impact aspects of area and department or functional results
- Manage related costs, methods, and budgets

Strategic Influence

Work is guided by general policies and management guidance:

- Independently determine approach to managing daily operations.
- Set performance expectations.
- Select, lead, counsel and motivates team.
- Interpret and execute policies that directly affect work activities.
- Develop and communicate plans/objectives to others.
- Contribute to the enterprise's strategy.

Leadership

Set project timeframes and priorities based on project objectives and on-going assignments. Provide guidance and technical advice and becomes actively involved as required. Adapt communications techniques for audiences at multiple internal/external levels:

- Council and motivate team members on performance.
- Capable of managing a diverse and mobile team regardless of physical location.
- Build innovation and creativity throughout the enterprise.
- Identify business opportunities.
- Build cross-functional partnerships both internal and external to the enterprise.
- Frequently communicate with internal and external contacts at various management levels.
- Assume responsibility for business outcomes and objectives.
- Assume responsibility for goals and objectives of the area.

Problem Solving

- Anticipate operational issues and develops preventive measures.
- Distills information from a variety of sources.
- Recognize how individual data fits into a situation as a whole.
- Identify what additional data is required.
- Anticipate operational issues and develops preventive measures.
- Solve problems impacting the department in a systematic and clear manner that can be understood by subordinates and colleagues.
- Analyze existing operations and make recommendations for the improvement and growth of digital communications, storage/server systems, enterprise backup, and related IT systems.
- Mentor and council direct reports, subordinates and when necessary, conduct performance reviews and corrective actions.

Required Skills

- Experience in managing the architecture, design, and implementation of the systems and network infrastructure
- Experience developing policies, procedures, and practices to operate optimal capacity of system resources and supporting expansion
- Developing technical strategy and delivery of technology operations and systems to maintain system performance, stability, reliability, recoverability, and application execution
- Experience managing outages and events to impact client-facing services as well as back office operations
- Ability to lead by example with high character
- Experience progressively managing and designing all aspects of system, network, and site operations in a fast paced environment

Desired Skills

- Hands-on experience with running a front line 24x7 operations team.
- Proven track record in developing the staff, tools, and processes required for a high volume and highly available operation.
- Experience with Disaster Recovery and Business Continuity planning.
- Experience with cloud computing infrastructure.
- High level of technical understanding and competence across multiple intersecting disciplines to be able to quickly analyze situations, correlate ideas, and make decisions.
- Takes ownership and accountability for excellence across the organization
- Maintains a business-driven focus of site operation and performance with an eye on cost control and revenue generation.
- Must be flexible and adaptable to moving priorities as well as business and technical needs with an eye toward the long-term strategy
- Ability to think strategically and to anticipate organizational and end-user needs into the future.
- Strong leadership skills and the ability to work efficiently and effectively in a demanding environment.
- Excellent interpersonal, communications, and analytical skills.

Credentials

- US Citizenship or Permanent Residence (Green Card) is required.
- Master's degree in an appropriate discipline, and eight years of related experience,
- or, in the absence of a bachelor's degree, at least ten years of related experience.
- At least 7 years of management experience in appropriate discipline.

Responsibility	Description	Percentage of Work
Managing	Manage a staff of professional team members and team leaders dispersed throughout the enterprise's locations.	25%
Interface with constituents	Interface with constituents for defining and developing business solutions to the enterprise.	20%
Analyze and Resolve Issues	Analyze and resolve business and technical issues	20%
Leadership	Council & motivate performance, build innovation & creativity, etc	20%
Other Duties as Assigned	Other duties as assigned	10%

Associate Vice President of IT Governance, Efficiency, & Effectiveness

Reports to the Vice President of Information & Technology Management and provides management and oversight of developing sound standards and compliance strategies that enable effective and efficient delivery of information technology objectives and programs across the system. Provides extensive business analysis on portfolio investments to ensure appropriate measure of integration with policy, mission, and goals of the system. Develop IT Service Management processes, tools, and people to support IT core service demands. Communicate processes standards to ensure understanding by stakeholders and develop SLAs for system.

Nature of Work

1. Identifies areas for business process improvement opportunities.
2. Responsible for creating/revising business models, methodologies, and workflows.
3. Provides consulting to re-engineer and strengthen business processes.
4. Oversees and provides leadership to team members in project execution.
5. Defines and directs complex data analysis.
6. Develops project work plans and performs project management.
7. Evaluates application programs to streamline business operations and support effective utilization of system resources for administrative and academic computing.
8. Coordinates professional development, user training, workshops, and seminars needed for process improvements.

Strategic Influence

Work is guided by general policies and management guidance:

- Independently determine approach to managing daily operations.
- Set performance expectations.
- Select, lead, counsel and motivates team.
- Interpret and execute policies that directly affect work activities.
- Develop and communicate plans/objectives to others.
- Contribute to the enterprise's strategy.

Leadership

Set project timeframes and priorities based on project objectives and on-going assignments. Provide guidance and technical advice and becomes actively involved as required. Adapt communications techniques for audiences at multiple internal/external levels:

- Council and motivate team members on performance.
- Capable of managing a diverse and mobile team regardless of physical location.
- Build innovation and creativity throughout the enterprise.
- Identify business opportunities.
- Build cross-functional partnerships both internal and external to the enterprise.
- Frequently communicate with internal and external contacts at various management levels.
- Assume responsibility for business outcomes and objectives.
- Assume responsibility for goals and objectives of the area.

Problem Solving

- Anticipate operational issues and develops preventive measures.
- Distills information from a variety of sources.
- Recognize how individual data fits into a situation as a whole.
- Identify what additional data is required.
- Anticipate operational issues and develops preventive measures.
- Solve problems impacting the department in a systematic and clear manner that can be understood by subordinates and colleagues.
- Analyze existing operations and make recommendations for the improvement and growth of digital communications, storage/server systems, enterprise backup, and related IT systems.
- Mentor and council direct reports, subordinates and when necessary, conduct performance reviews and corrective actions.

Required Skills

- Development/revision of the IT Governance policies and procedures.
- Manage the IT policies and procedures, framework and make sure that they are followed and up to date.
- And conduct annual reviews with the policy/processes owners
- Develop, manage and enhance the IT Governance framework, road map & governing processes.
- Research, recommend, manage and participate in implementing any required IT standards, controls or policies and procedures.
- Work closely with the other departments to ensure that they comply with the IT policies, procedures and standards.
- Identify gaps in the effectiveness of the implemented IT controls, and identify opportunities for enhancements
- Participate in any project-related work to address Technologies compliance as mandated. Ø
- Demonstrated leadership abilities.
- Demonstrated ability to learn new systems and technologies quickly.
- Experience setting up and managing Service Level Agreements; establish service level agreements with business units..
- Experience with data center design and best practices.

Desired Skills

- Minimum of 3-5 years' experience with business operations or IT service management and delivery, or the equivalent combination of education and experience.
- Strong knowledge of IT & Quality standards (such as ISO27001) and best practices as they relate to IT governance such as ITIL, CoBiT ...etc
- Experience in the identification, evaluation and documentation of policies, process and controls.
- High level of computer literacy with spreadsheets, word processing and database software and/or business systems (Word, Access, Excel, PowerPoint, MS Project, VISIO, VB, other graphic software).
- Must have a detailed and analytical approach with hands-on experience with project management tools (e.g., Microsoft Project) and strong organizational skills.
- Excellent interpersonal skills as well as written/oral communications skills in supporting client needs are essential.
- Ability to identify gaps and provide recommendations and enhancements that will enhance operations and reduce risks

Credentials

- US Citizenship or Permanent Residence (Green Card) is required.
- Master's degree in an appropriate discipline, and eight years of related experience, or, in the absence of a bachelor's degree, at least ten years of related experience.
- At least 7 years of management experience in appropriate discipline.

Responsibility	Description	Percentage of Work
Managing	Manage a staff of professional team members and team leaders dispersed throughout the enterprise's locations.	25%
Interface with constituents	Interface with constituents for defining and developing business solutions to the enterprise.	20%
Analyze and Resolve Issues	Analyze and resolve business and technical issues	20%
Leadership	Council & motivate performance, build innovation & creativity, etc	20%
Other Duties as Assigned	Other duties as assigned	10%

Senior Director of Enterprise Systems

Reports to the Vice President of Information & Technology Management and provides leadership of the operations of system-wide applications and systems (e.g., Banner, Learning Management Systems, Content Management, SharePoint, Portal, etc.). Plan, organize, and direct the development, administration, and coordination of programs, operations, project management for system-wide initiatives. Manage implementation of new systems, maintenance, innovation, and data integrity associated with system resources.

Nature of Work

Responsible for the administration, integration, and coordination of system Banner services team members for Student, Human Resources, Finance, Financial Aid, and other Enterprise Systems staff and vendors. The incumbent provides services associated with campus portals, data warehousing and business intelligence applications which include planning, development, installation upgrade, security, and disaster recovery for all administrative applications and databases.

- Duties include but are not limited to: provides leadership, technical support, and staff support to all areas of CITE, develops policies, procedures, and standards;
- Directs resource management including fiscal and human resources; participates in all activities associated with the installation, implementation, upgrade, maintenance, security, and operation of all campus administrative information systems
- Provides leadership, consulting, budget development, evaluation, feasibility, design and implementation services to ensure campus administrative information services meet strategic university goals.
- Manage a staff of professional team members and team leaders dispersed throughout the enterprise locations.
- Define roles and responsibilities
- Define and contribute to standards around which others will operate
- Establish and influence operating policies
- Impact aspects of area and department or functional results
- Manage related costs, methods, and budgets

Strategic Influence

Work is guided by general policies and management guidance:

- Independently determine approach to managing daily operations.
- Set performance expectations.
- Select, lead, counsel and motivates team.
- Interpret and execute policies that directly affect work activities.
- Develop and communicate plans/objectives to others.
- Contribute to the enterprise's strategy.

Leadership

Set project timeframes and priorities based on project objectives and on-going assignments. Provide guidance and technical advice and becomes actively involved as required. Adapt communications techniques for audiences at multiple internal/external levels:

- Council and motivate team members on performance.
- Capable of managing a diverse and mobile team regardless of physical location.
- Build innovation and creativity throughout the enterprise.
- Identify business opportunities.
- Build cross-functional partnerships both internal and external to the enterprise.

- Frequently communicate with internal and external contacts at various management levels.
- Assume responsibility for business outcomes and objectives.
- Assume responsibility for goals and objectives of the area.

Problem Solving

- Anticipate operational issues and develops preventive measures.
- Distills information from a variety of sources.
- Recognize how individual data fits into a situation as a whole.
- Identify what additional data is required.
- Anticipate operational issues and develops preventive measures.
- Solve problems impacting the department in a systematic and clear manner that can be understood by subordinates and colleagues.
- Analyze existing operations and make recommendations for the improvement and growth of digital communications, storage/server systems, enterprise backup, and related IT systems.
- Mentor and council direct reports, subordinates and when necessary, conduct performance reviews and corrective actions.

Required Skills

- Minimum of eight years progressively responsible management or major project management experience, and five years of experience with SCT ERP student or Human Resources systems including application system support, or implementation.
- Comprehensive working knowledge of portal/web/internet technologies, content management systems, data warehousing, desktop toolsets, workstations and MS Office products, electronic mail systems, and technical knowledge of cloud services.
- Experience with Toad, Argos, Form Fusion, COBOL, ODS, BDMS, or equivalent.
- Demonstrated success in managing complex, long term projects preferably in higher education and project management responsibilities for institution-wide systems implementations and conversions.
- Ability to: comprehend strategic plans and directions, and integrate into daily operations through information technology application implementations;
- Comprehend institution needs and requirements through preparation of needs analysis and feasibility studies that reflect desired outcomes
- Ability to coordinate multiple project tasks without the loss of integrity to work, as well as organizing, monitoring and guiding others to ensure desired outcomes are achieved.
- Knowledge of state and federal laws and regulations affecting the handling, access, storage and disposal of confidential information.

Desired Skills

- Hands-on experience Oracle Enterprise Systems, Banner, RHEL, Business Intelligence Tools
- Must possess demonstrated ability to communicate effectively both orally and in writing, as well as possess solid constructive listening skills.
- Weekend and evening work will be required to address problems, maintenance, upgrades and new implementation.
- Demonstrated ability to: establish and maintain professional and cooperative working relationships with administrators, faculty, and staff; act decisively under stressful situations; and an ability and/or interest in working in a multicultural/multiethnic environment..

- Ability to think strategically and to anticipate organizational and end-user needs into the future.
- Strong leadership skills and the ability to work efficiently and effectively in a demanding environment.
- Excellent interpersonal, communications, and analytical skills.

Credentials

- US Citizenship or Permanent Residence (Green Card) is required.
- Master's degree in an appropriate discipline, and eight years of related experience, or, in the absence of a Master's degree, at least ten years of related experience.
- At least 7 years of management experience in appropriate discipline.

ERP Technical Lead

Reports to the Director of ERP Services/Solution Architect. The ERP Technical Lead will provide technical project support for the University and System's Banner ERP System (Student Administration, Human Resources, Payroll, Financials and General). Position provides technical leadership for the ERP system in the day-to-day tasks of technical implementation, modification, and/or re-implementation of various components. Participates *and lead* other technologists and business process owners of functional units with respect to on-going project initiatives as related to the ERP system and external systems to which it interfaces.

Nature of Work

Proposes and implements innovative solutions to meet the needs of business within the enterprise. Regularly reports to management, both technical and function, with respect to the state of the ERP system and various projects that will naturally evolve from such a complex enterprise solution. Performs other essential duties as assigned, included but not limited to:

- Solid understanding of business processes, the BPA, and their impact on the effective use of an ERP System.
- Sound knowledge of the interconnected nature and complexities of ERP applications.
- Solid foundation in best practices for quality software development, testing and code migration.
- Lead program execution
- Contribute policy/program development
- Manage related costs, methods, and budget.

Strategic Influence

Work is guided by general policies and management guidance:

- Independently determine approach to managing daily operations.
- Set performance expectations.
- Select, lead, counsel and motivate team.
- Interpret and execute policies that directly affect work activities.
- Develop and communicate plans/objectives to others.

Leadership

Sets project timeframes and priorities based on project objectives and on-going assignments. Provides guidance and technical advice and becomes actively involved as required. Adapts communications techniques for audiences at multiple internal/external levels:

- Council and motivate team members on performance.
- Capable of managing a diverse and mobile team regardless as to physical location.
- Frequent contact with internal and external contacts at various management levels.

Problem Solving

- Anticipate operational issues and develops preventive measures.
- Solve problems impacting the area in a systematic and clear manner that can be understood by subordinates and colleagues.
- Analyze existing operations and make recommendations for the improvement and growth of storage/server systems, enterprise backup, and related IT systems.
- Direct systems administrators and where necessary, conduct performance reviews and corrective actions.

Required Skills

- High degree of ORACLE technical proficiency, as well as SQL, ASP.NET, UNIX, MS ACCESS, MYSQL, C/C++, and XML.
- Coordinates user training, workshops, seminars and provides technical assistance to functional users.
- Evaluates application programs to streamline business operations and support effective utilization of system resources for administrative and academic computing.
- Collaborate with analysts, designers, and system owners in the testing of newly-integrated software programs and applications.

- A minimum of five years experience with Banner is required
- Strong analytical and interpersonal skills.
- Strong oral and writing skills.
- Strong documentation skills.

Desired Skills

- Design and implement long-term strategic goals and short-term tactical plans for managing and maintaining corporate systems and software.
- Well-rounded application and program development experience with operational support of ERP systems.
- Able to develop and present architecture presentations that speak to both IT and business value.
- Knowledge of Blackboard and other eLearning systems
-

Credentials

- US Citizenship or Permanent Residence (Green Card) is required.
- Bachelor's degree in an appropriate discipline, and 5 years of related experience, or, in the absence of a bachelor's degree, 7 years of related experience.
- At least 3 years of management experience in appropriate discipline.

Manager of Data Center Operations

Reports to the Associate Vice President of Technology Operations and is responsible for the management, mentoring, and development of employees on the team. Performs server hardware build-out duties to include operating system install, configuration and testing in accordance with policies and procedures. Performs hardware placement within the datacenter-raised floor to include rack build, cable management, and hardware install, decommission, and power distribution and airflow distribution. Performs intermediate n-tier system troubleshooting and root cause analysis and provides Tier III or Tier IV resources with troubleshooting assessment.

Nature of Work

This position will direct activities related to Data Center management within the System hosted data centers in campus locations. This position will also be responsible for Data Center scheduling, capacity planning, standards, design, and build out. This position also exercises leadership within broadly defined practices and policies and will manage data center related activities.

- Manages data center and corporate sites ensuring maximum availability for all hosted environments by leveraging VMware and other tools
- Provides day-to-day Operational oversight in a 24-7-365 Enterprise level Data Center
- Maintains real time data center monitoring, dashboard reporting, vendor interface and change control processes
- Manages Data Center Operations team daily tasks, coordinate changes and create team improvement initiatives
- Works with the IT Manager to select, develop and evaluate staff to ensure the efficient operation of the team
- Provides weekly status reports including metrics, team status, and customer satisfaction
- Motivates staff to achieve efficiency and productivity
- Monitors and reports on capacity and operational performance for the Data Center environment per assigned metrics
- Contribute to policy/program development
- Impact aspects of area and department or functional results
- Manage related costs, methods, and budgets

Strategic Influence

Work is guided by general policies and management guidance:

- Independently determine approach to managing daily operations.
- Set performance expectations.
- Select, lead, counsel and motivates team.
- Interpret and execute policies that directly affect work activities.
- Develop and communicate plans/objectives to others.
- Contribute to the enterprise's strategy.

Leadership

Set project timeframes and priorities based on project objectives and on-going assignments. Provide guidance and technical advice and becomes actively involved as required. Adapt communications techniques for audiences at multiple internal/external levels:

- Council and motivate team members on performance.
- Capable of managing a diverse and mobile team regardless of physical location.
- Build innovation and creativity throughout the enterprise.

- Identify business opportunities.
- Build cross-functional partnerships both internal and external to the enterprise.
- Frequently communicate with internal and external contacts at various management levels.
- Assume responsibility for business outcomes and objectives.
- Assume responsibility for goals and objectives of the area.

Problem Solving

- Anticipate operational issues and develops preventive measures.
- Distills information from a variety of sources.
- Recognize how individual data fits into a situation as a whole.
- Identify what additional data is required.
- Anticipate operational issues and develops preventive measures.
- Demonstrated ability to work in a high volume, fast-paced environment with many deadlines and competing priorities.

Required Skills

- Ability to define/document operational standards, understand data center critical infrastructure, and understand server operating systems.
- Understanding of current data center best practices, design principals, Power systems, Rack Design, Thermodynamics, Fires Suppression, Cabling standards (copper and fiber) and Capacity Management.
- Knowledge of server and network architecture and associated components
- Experience deploying hardware and services in data centers.
- Solid understanding of a 24 x 7 high-availability, mission-critical server infrastructure - MUST be able to articulate needs and plans to vendors.

Desired Skills

- Excellent oral and written communication skills and grammatical skills as well as professional phone etiquette.
- Self-driven with the ability to successfully work and promote inclusiveness in small groups.
- 7 years demonstrated Data Center Management experience.
- 5 years' experience with ITIL standards as it relates to Change management & IT lifecycles.

Credentials

- US Citizenship or Permanent Residence (Green Card) is required.
- Bachelor's degree in an appropriate discipline, and five years of related experience,
- or, in the absence of a bachelor's degree, at least seven years of related experience.
- At least 5 years of management experience in appropriate discipline.

Appointment of Executive Associate to the Chancellor

REVISED

SUSLA
SOUTHERN UNIVERSITY SHREVEPORT LOUISIANA

Excellence • Integrity • Accountability • Service

Office of the Chancellor

August 23, 2013

Dr. Ronald Mason Jr, President
Southern university System
4thFloor, J. S. Clark Administration Building
Baton Rouge La 70813

RE: Appointment of Executive Associate to the Chancellor

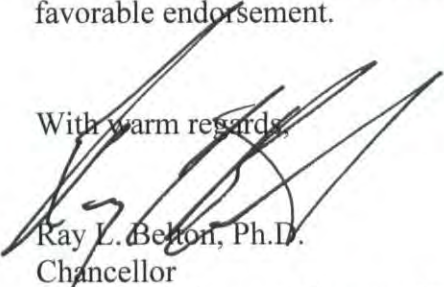

Dear Dr. Mason:

Please accept this correspondence seeking your support of the appointment of Dr. Melva Turner-Williams who I have sought to serve as the Executive Associate to the Chancellor effective October 1, 2013.

Therein, this appointment reflects an imperative for the Office of the Chancellor and identifies an individual who is an accomplished academician and one who has established a substantial record of senior leadership experience in academic and student affairs as practiced in various higher education settings. In that vein, she is a student of public policy and educational reform efforts and has been consistent in the promotion of student centered initiatives and the advancement of programs that yield student success. Further, in keeping with her role in a private college setting, it is my belief that this appointment will bring much to SUSLA in assisting this Office to establish fundraising strategies and to identify opportunities for enhancing relationships with the philanthropic community and potential partners. I am confident that she possesses the leadership skills and attributes that would warrant the respect of the faculty and staff of this institution and that her tenure will reflect the successful accomplishment of goals as expected by the university community.

Attached please find a copy of Dr. Melva Turner-Williams vitae for your review and a personnel action form for your consideration. It is my hope that you find this recommendation merits your favorable endorsement.

With warm regards,

Ray L. Belton, Ph.D.
Chancellor

SOUTHERN UNIVERSITY AT SHREVEPORT

Job Description

Executive Associate to the Chancellor

The Executive Associate to the Chancellor serves as the senior professional staff member in the Office of the Chancellor. The Executive Associate reports directly to the Chancellor and serves as a member of the Chancellor's Executive Leadership Team and as a member of the Chancellor's Cabinet.

The primary responsibilities of the Executive Associate to the Chancellor are listed as follows:

- Assists the Chancellor in carrying out the day-to-day activities of the Office of the Chancellor.
- Work closely with the Chancellor to set fundraising strategies consistent with institutional goals.
- Identify opportunities and effectively execute strategies for enhancing relationships with the philanthropic community and potential partners.
- Work closely with marketing and Foundation staff to expand sponsorship opportunities.
- Represents Chancellor in various capacities both on and off campus as requested.
- Serves as a liaison between the Chancellor and other campus Vice Chancellors and other senior leadership team members when necessary.
- Provides leadership and manages institutional departments, units, etc. as directed by the Chancellor.
- Assists the Chancellor with the review of recommendations for appointments, promotions, suspensions and dismissals of employees.
- Assists and reviews the formulation of educational and administrative policies and procedures for the campus.
- Coordinated the preparation of items for all Board of Supervisors meetings.
- Assists or coordinates the preparation of any information/reports requested by the Southern University System Office and/or Board of Supervisors.
- Serves as Chancellor's representative in interacting with external agencies, such as private corporations, businesses, federal and state agencies and other educational institutions.
- Serves as liaison with the Southern University at Shreveport Foundation and collaborates with the SU Alumni Federation's national office as requested.
- Engages in discussions with the Chancellor on sensitive items and items of a confidential nature for the purpose of clarifying and bringing resolution to issues.
- Prepares reports, responses, and other multi-varied communication when directed by the Chancellor.
- Responds to inquiries, observations, etc. by the various publics.
- Responds to correspondence; acting upon contents of the same, where appropriate.
- Responds to questionnaires, surveys, inquiries, complaints, commendations, etc.
- Provides data and background information for presentations that are made by the Chancellor.
- Assists with the preparation and/or writing of presentations for the Chancellor.
- Serves on committees as directed by the Chancellor, both internal and external to the University.
- Resolves problems of students, faculty and staff which do not require the Chancellor's personal attention.
- Coordinates the preparation and submittal of all required reports for the Board of Regents from the Office of the Chancellor.
- Performs other tasks as assigned by the Chancellor.

September 6, 2013 Board Item

➤ **Appointment of the Vice Chancellor for Academic & Student Affairs**

SUSLA
SOUTHERN UNIVERSITY SHREVEPORT, LOUISIANA

Excellence • Integrity • Accountability • Service
Office of the Chancellor

August 20, 2013

Dr. Ronald Mason, Jr., President
Southern University System
4th Floor, J. S. Clark Admin Building
Baton Rouge, La 70813

RE: Appointment of the Vice Chancellor for Academic and Student Affairs (SUSLA)

Dear Dr. Mason:

This correspondence comes to recommend the appointment of Dr. Rosetta Howard to the role of Vice Chancellor for Academic and Student Affairs, with an annual salary of \$113,000, effective October 1, 2013.

As you are aware, Southern University at Shreveport is currently guided by the aim to demonstrate to our community an organizational culture that mirrors the standard of academic excellence; and to that end, the University initiated a national search to fill the Vice Chancellor position as a result of the decision entered into by Dr. Orella Brazile to retire after having contributed more than 44 years in the higher education community. Therein, this appointment reflects the outcome of that endeavor, and identifies an individual who is seen as a seasoned advocate for academic rigor and one who has established a substantial record of senior leadership experience in academic affairs, compliance assurance, and the promotion of student success in a community college setting.

More specifically, Dr. Howard brings to the Shreveport campus 20 years of experience in engaged learning pedagogy for undergraduate students, an established record of designing enrollment management strategies, knowledge of the use of technology, evidence of being a transformational leader and a cycle of accomplishments that highlights her leadership in shaping quality outcomes and innovative initiatives. Moreover, she has brought focus not only on current issues relative to community college education; but best practices that have directed educational reform. Indeed, I am confident that she possesses the leadership skills and attributes that would warrant the respect of the faculty and that her tenure will reflect the successful accomplishment of goals as expected by the university community.

Attached please find a copy of Dr. Rosetta Howard's vitae for your review and a personnel action form for your consideration. It is my hope that you find this recommendation merits your favorable endorsement.

With warm regards,

Ray L. Belton, Ph.D.

Southern University at Shreveport Job Description

VICE CHANCELLOR FOR ACADEMIC AND STUDENT AFFAIRS

Southern University at Shreveport, Louisiana (SUSLA) invites nominations and applications for the position of Vice Chancellor for Academic and Student Affairs. SUSLA is a comprehensive community college serving Shreveport, Bossier City, and surrounding areas in Northwest Louisiana. It is one of five campuses constituting the Historically Black Southern University System. The University serves approximately 3,000 undergraduate students and offers 32 undergraduate degrees and certificate programs, in a variety of fields including Allied Health, Nursing, Aerospace Technology, Business Studies, Behavioral Science/Education and Science and Technology. Southern University at Shreveport is located on more than 100 acres appraised at a value of more than fifteen (15) million dollars.

Under the direction of the Chancellor, the Vice Chancellor for Academic and Student Affairs is the chief academic and student services officer of the University. The position provides leadership and direction in fostering student success through an evidence-based approach to instructional effectiveness and student support. The Vice Chancellor must be an effective leader in working with faculty and student services staff, and will be committed to continuous improvement. The Vice Chancellor must be a highly capable budget manager and a strong strategic planner who can be relied upon for timely implementation of strategic and operational goals. A passion for our community college mission and for closing the achievement gap is essential.

Duties and Responsibilities are as follows:

POSITION PURPOSE:

The Vice Chancellor for Academic and Student Affairs, working with the Chancellor and the Academic and Student Affairs Leadership Team, sets the vision and mission for instructional and student affairs in the University while providing leadership and management for the divisions and departments he/she oversees.

LEADERSHIP

- ▶ Facilitate the integration of quality instruction and service to students; lead the development and implementation of student success practices.
- ▶ Provide leadership in strategic planning and establish and assess planning processes in collaboration with faculty, staff and students.
- ▶ Establish assessment and accountability procedures in collaboration with the management team, faculty, staff, and students.
- ▶ Develop and supervise the Academic and Student Affairs management team through coaching, mentoring, facilitating and supporting professional development.
- ▶ Articulate the University's vision, mission, values and areas of focus.
- ▶ Manage the Academic and Student Affairs leadership team to ensure integrated practices that support quality instruction and student success.
- ▶ Promote and foster collegiality between instruction/student services and other areas of the university.

- ▶ Provide leadership for innovation, research, and development of technology enhanced pedagogies and student services. Initiate and/or encourage change, creativity, and innovation processes.
- ▶ Actively participate in state and regional organizations related to academic and student affairs, and other areas that support its mission.
- ▶ Ensure compliance with regional accreditation policy and standards on instruction and student services.

ADMINISTRATION/MANAGEMENT

- ▶ Provide leadership to review services and programs to ensure effective enrollment management and development and assessment of student recruitment and retention strategies.
- ▶ Develop an organizational climate that supports staff in accomplishing the goals and objectives of Academic and Student Affairs.
- ▶ Directly supervise leadership team; develop annual goals and evaluate performance.
- ▶ Represent the University at appropriate local, state and national levels.
- ▶ Supervise the coordination, preparation and submission of all reports required by local, state and national agencies.
- ▶ Possess an in-depth understanding of instructional and workload issues and variances throughout divisions/departments.
- ▶ Advocate and facilitate a positive climate of change and improvement within the University.
- ▶ Manage and monitor the Academic and Student Affairs budget in collaboration with other divisions and departments; utilize data in decision making to ensure effective, efficient and sustainable use of resources.
- ▶ Be responsible for personnel actions, such as: payroll, employment and termination actions, recruitment process, assignment, supervision and evaluation of staff in collaboration with the Executive Leadership Team and Human Resources.
- ▶ Represent Academic Affairs and Student Affairs as a member of the Chancellor's Executive Leadership team in all matters related to budget, finance, facilities, human resources and operations.
- ▶ Promote and be a strong participant in university governance.

TEACHING, LEARNING & STUDENT SUCCESS

- ▶ Provide leadership for development of learning-centered environments that promote student success.
- ▶ Establish, implement, and maintain policies and procedures to foster student success and ensure that services are consistent with college goals, applicable statutes, and regulations.
- ▶ Provide leadership in support of the university's eLearning goals and objectives; leadership in the utilization of information technology to enhance instruction and student services; facilitate the development of appropriate delivery of instruction and services to promote success with multiple modes of technology-enhanced learning.
- ▶ Maintain partnerships and expand ongoing liaison, communication and articulation between high schools, 2 and 4 year colleges, universities, workforce and regional agencies, and other agencies serving students.

- Maintain currency with state, regional and federal regulators governing curriculum, certificates and degrees, accrediting bodies, and educational reform around performance, student success, and accountability.
- Provide direction for dean(s), division chairs, department heads, faculty, and staff to initiate instructional changes and determine the appropriate services to keep programs current, growing and innovative in order to meet learning needs.
- Serve as leader and member of internal committees and councils involved in governance of the institution; represent SUSLA in regional and national higher education and academic and student affairs organizations.
- Represent the University at community activities by actively participating in community organizations which support and strengthen SUSLA's programs and activities.
- Facilitates communication between the university chancellor, the faculty, and student services staff and serves as the chancellor's intermediary as appropriate.
- Acts on behalf of the Chancellor, and assumes responsibility for the University in the absence of the Chancellor and at his/her request.

QUALIFICATIONS

An earned doctorate from an accredited institution is required

Minimum of five years of increasingly responsible administrative, management and leadership experience in higher education, instructional, career technical and student services experience is required.

Two years higher education (full-time equivalent) teaching and/or non-instructional faculty experience is required. Training and experience in higher education classroom teaching and learning, course material preparation, student development, and best practices for student success and persistence is considered.

A record of successful collaboration with faculty, staff and student constituent groups.

Budget planning and implementation in a cost-conscious and fiscally sustainable manner.

Demonstrated understanding of higher education instructional and student affairs processes, challenges and opportunities.

PREFERRED EXPERIENCE

- Community college experience strongly preferred.
- Demonstrated experience with technology innovation as a means of extending, enhancing, or transforming the learning environment.
- Demonstrated ability to build systems that promote communication and transparency.
- Demonstrated experience working within a large scale organization/system.
- Experience with students, including under-served and non-traditional student populations.
- Demonstrated skill and informed commitment to promote and enhance diversity is expected.
